LOCATION

DESIGN & STYLE

The revolutionary design of FIVE Palm Jumeirah was conceptualised by our in-house architect Nabil Akiki, CEO of FIVE Real Estate Development. A sparkling glass-clad jewel soaring directly over the Arabian Gulf, the FIVE pioneering design and trailblazing architecture was inspired by amphitheaters, maximising the magnificent views and presenting a befitting stage for captivating performances. Floor-to-ceiling windows allow atmospheric light to pour in, creating a sense of spaciousness and transparency, whilst a carefully-considered design ensures a smooth flow of energy throughout. A towering 15-metre by 15-metre glass cube, the largest of its kind in the world, greets guests, allowing a view of the pool, sea and beyond to unfold from the moment they step through the doors, creating an unmistakable sense of a – like the first act of a play.

Inside, twisting wooden structures gracefully rise up to resemble a double helix and represent the DNA and heart of the hotel. A series of playful yet intimate spaces unfold within, all centred around a 60-metre statement pool. The inimitable ambience of the hotel comes alive here, with luxurious day beds, alfresco dining and cool tunes sparking excitement all day long. Every piece of furniture and lighting, amenity and service is crafted and curated to exude style and substance. Timeless interiors feature a calming colour palette of teal, bronze, light and dark wood, with marble finishes creating balance and refinement. A recurring honeycomb hexagonal pattern runs throughout, complemented by a carefully chosen mix of contemporary furniture.

SOCIAL POOL

The 60-metre social pool lies at the heart of the hotel. Flanked by palm trees and two pool bars, this pool is the ultimate spot to listen to the beats of our in-house DJ, sip a cocktail and enjoy the Dubai sunshine.
